REPORT ON INVESTMENTS IN STATE HIGHWAY SYSTEM
BY OUTSIDE FUNDING SOURCES

BACKGROUND

CTC Resolution G-96-17, adopted July 11, 1996, requires the Department of Transportation (Department) to provide the California Transportation Commission (Commission) with a funding summary of projects financed by other agencies on the State Transportation System during the previous year. Furthermore, the summary shall include a list of those projects where the local contribution exceeds \$20 million.

DISCUSSION

The attached summary provides information on local funding for projects on the State Transportation System. Included are projects that are 100% locally-funded and those projects in the STIP and SHOPP that are partially funded with local funds. This summary shows funding derived from Sales Tax Measures separate from other local funds. Also shown is a list of projects where the local contribution exceeds \$20 million. Detailed project lists that support these summaries were provided to Commission Staff under separate cover.
